

ARTIFICIAL INTELLIGENCE : 11121712	
No.	Topics
1	Quantifying Uncertainty
2	Probabilistic Reasoning
3	Making Simple & Complex Decisions
4	Learning Probabilistic Models
5	Reinforcement Learning
6	Natural Language Processing & Communication
7	Natural Language Perception & Robotics
8	Concluding Philosophy
9	Mathematical Background for the Present & Future
10	Languages and Algorithms
